

Formulate 20' Flip - Kit 01

FLIP-01

Flip™ 20ft exhibits incorporate layered, staggered walls that are connected to create a unique, dimensional and versatile display. Double-sided graphics enable you to feature a different look, brand or messaging so you can SPIN from front to back or use as a creative space divider for a larger space. With an easy graphic change, you can also FLIP from top to bottom to create a new, different exhibit and look for your next event.

features and benefits:

- State-of-the-art 30mm aluminum tube frame with sturdy internal spigot assembly
- Easy to store and ship
- Quick to set up
- Kit includes: one frame, dye-sublimated zipper pillowcase graphics, and two wheeled molded OCE storage cases
- Lifetime hardware warranty against manufacturer defects

Flip Kit 01 GRAPHIC OPTIONS

Double-sided graphics for the **SPIN** option work great for an island display or can be re-purposed at a different tradeshow. The graphics will be printed sewn together as a pillowcase.

Double-sided graphics for the **FLIP** option work great for utilizing the same booth for multiple tradeshows or events. The graphics will be printed sewn together as a pillowcase. Please note that the "flipped" backside of the graphics will be sewn upside down. Also, one side will have zippers on the bottom but when flipped, they will be located on the top.

Double-sided Option 3 **SPINS & FLIPS** in orientation and requires purchasing 2 sets of single sided graphics. All graphics are printed on our power stretch.

Step 1: Pick a desired front view for your kit.

If only ordering a single sided graphic, you will be done completing this form after this step.

Front Option A

Front Option B

Front Option C

Front Option D

Step 2: If only ordering a double-sided graphic, please select one of the options for the backside listed below.

**Flip Kit 01
Frame Assembly:**

Assemble unit by laying tubes flat on the floor. Connect the tube rails following the labels by matching number to number. See detailed drawing above and on following page.

Slide joiner into tubing so hex screw sits in hole on tube. Tighten the hex screw so the joiner separates and tightens against the inside of the tubing, locking the joiner and tubing together.

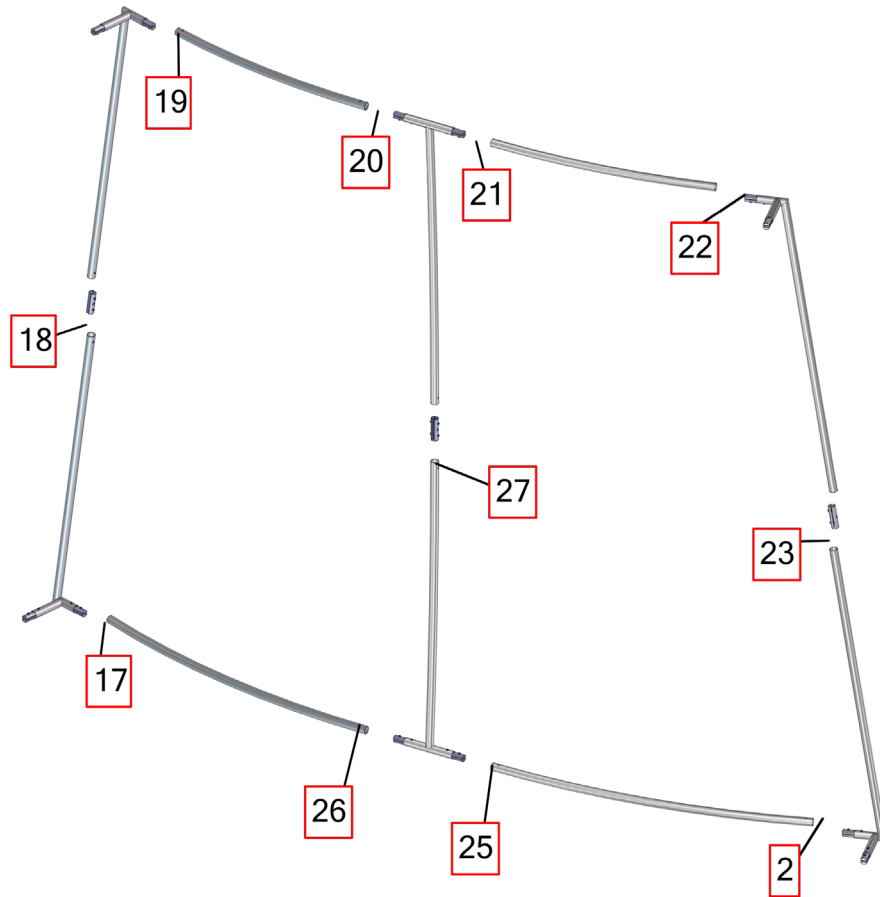

Flip Kit 01

Center Section Assembly:

Step 1: Slide joiner into tubing so hex screw sits in hole on tube.

Step 2: Tighten the hex screw so the joiner separates and tightens against the inside of the tubing, locking the joiner and tubing together.

Step 3: Zip fabric graphic closed around frame.

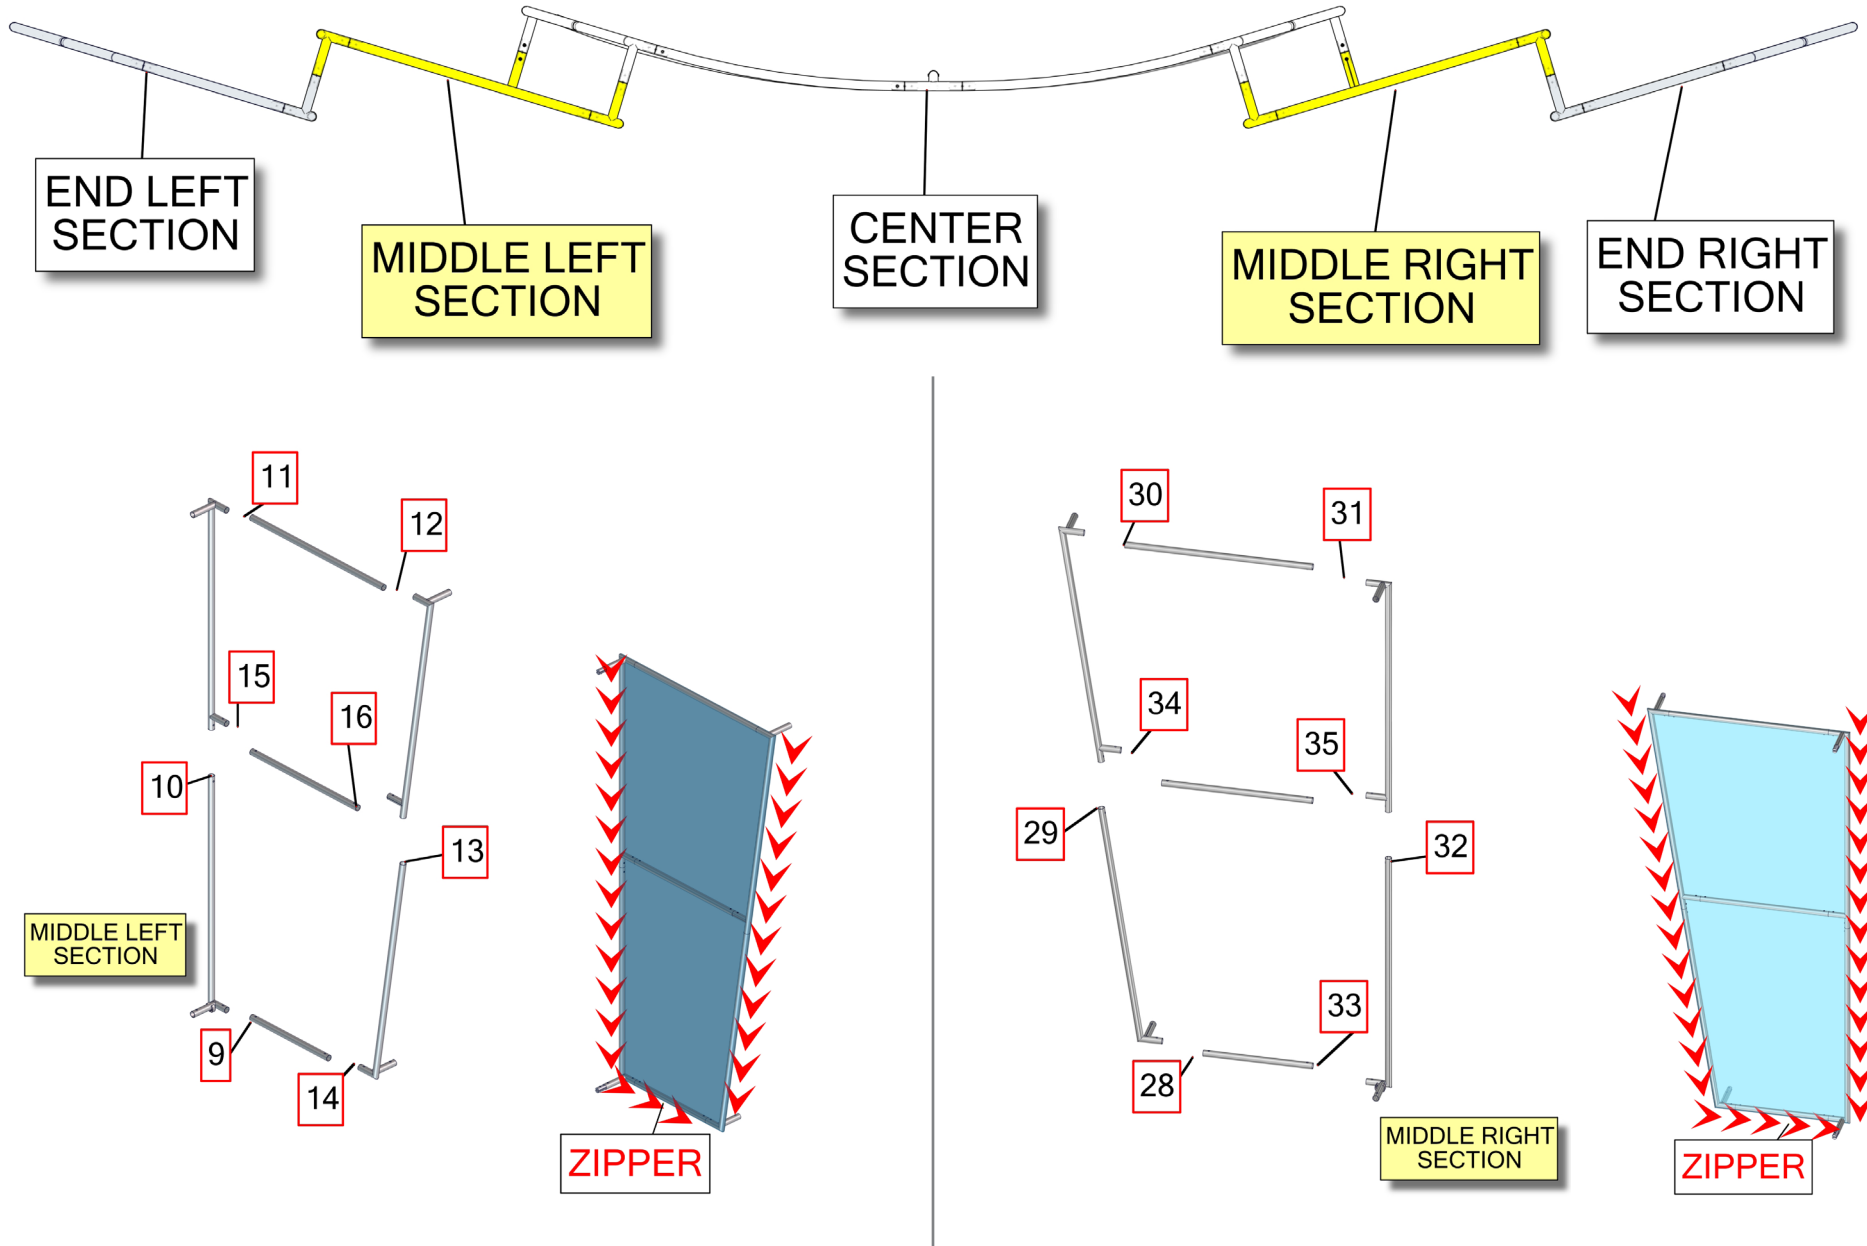

Flip Kit 01

Middle Left & Middle Right Section Assembly:

Step 1: Slide jointer into tubing so hex screw sits in hole on tube.

Step 2: Tighten the hex screw so the jointer separates and tightens against the inside of the tubing, locking the jointer and tubing together.

Step 3: Zip fabric graphic closed around both frames.

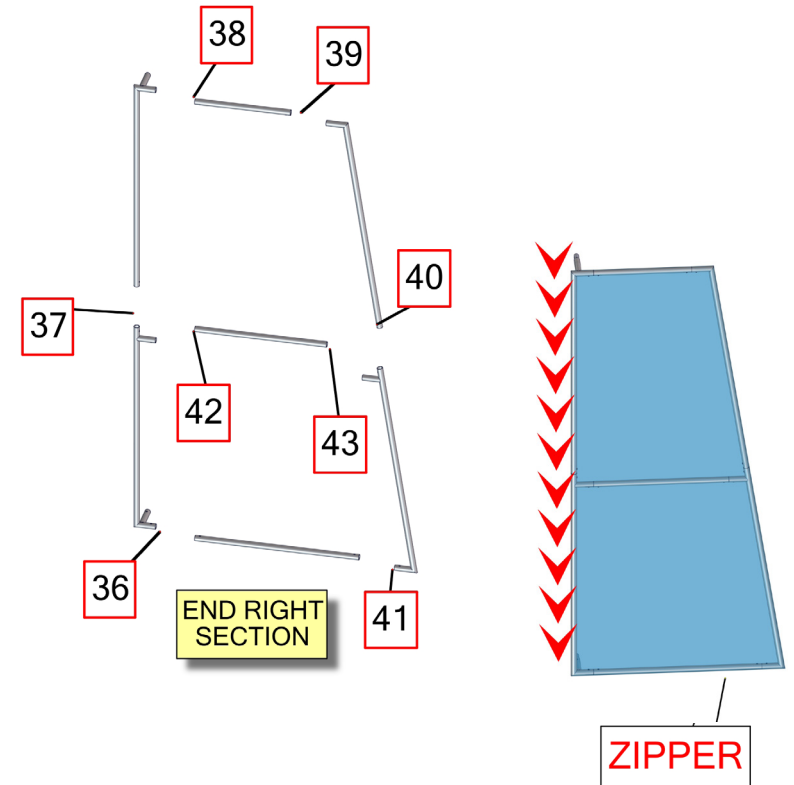

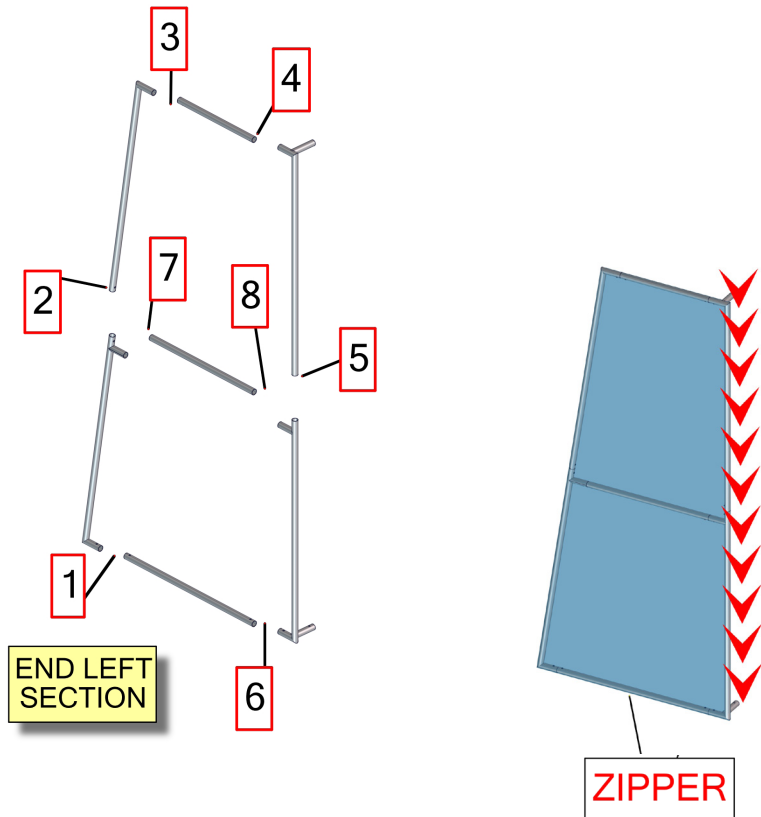

Flip Kit 01

End Left & End Right Section Assembly:

Step 1: Slide joiner into tubing so hex screw sits in hole on tube.

Step 2: Tighten the hex screw so the joiner separates and tightens against the inside of the tubing, locking the joiner and tubing together.

Step 3: Zip fabric graphic closed around both frames.

Flip Kit 01

Connect the end sections to the middle sections and then the middle sections to the center section. Fabric graphic should already be on each individual panel. Connect the tube rails by pressing the push pin buttons in and slide over (see detailed drawing below) following the number labels listed matching number to number.

Flip Kit 01

Step 1: Install fabric side panels with velcro on top & bottom as shown in diagram below.

Step 2: Attach FLIP-PLATE feet for support in locations as shown.
