# Orbital Truss Kiosk 02

OR-KIOSK-02

Orbital Express™ Truss Kiosks are the perfect way to display media and/or literature at any trade show, event, retail or corporate space. Kiosks complement the Orbital Truss Express line of 10', 20' and 20' x 20' displays. Monitors not included. Kiosk table tops and bases available in choice of four thermoform finishes.
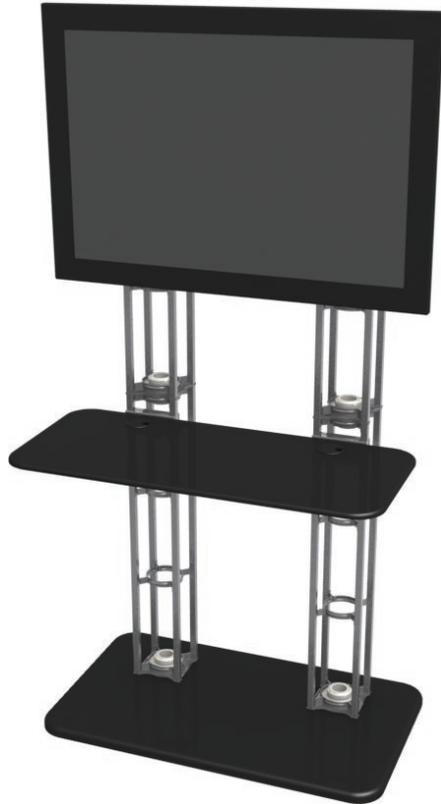

features and benefits:

- Finished Base
- Magnet mounted graphic
- 2 OCH2 molded cases
- Optional OCF case

- Small monitor bracket: Holds sizes 40"- 65"
  Max weight: 80 lbs / 36 kg
- 5 year warranty against manufacturer
  defects

dimensions:

Hardware

Assembled unit:
40"w x 73.75"h x 28.25"d
1016mm(w) x 1873mm(h) x 718mm(d)

Approximate weight with cases:
89 lbs / 40 kg

Shipping

Packing case(s):
2 OCH2

Shipping dimensions:
52"w x 29"h x 15"d
1321mm(w) x 737mm(h) x 381mm(d)

Approximate total shipping weight (with case):
154 lbs / 70 kg

additional information:

*Kit does not include monitors

Tabletop Max Weight: 25 lbs / 11 kg

Counter / Base color options:

silver   black   mahogany   natural

Included In Your Kit
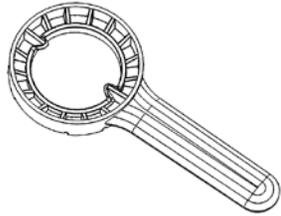

OR-TOOL-B x1
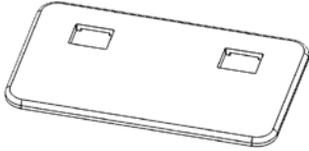

OR-B1-B x1
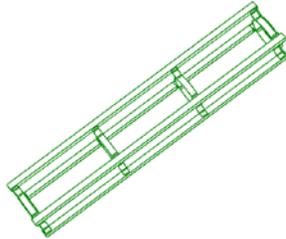

OR-36-2 x4
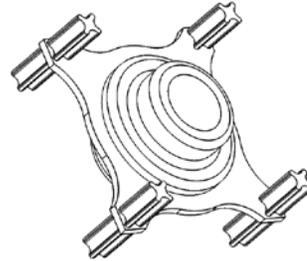

OR-QL-T2T x2
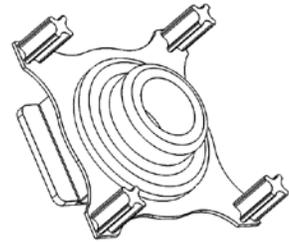

OR-UNC-QL x2
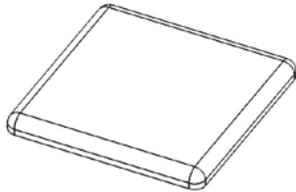

OR-TEC-15-B x2

OR-LG-MB x1
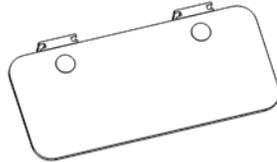

OR-KIOSK-CT1-B x1

OR-36-2

OR-QL-T2T

OR-KIOSK-CT1-B

OR-36-2

OR-UNC-QL

OR-B4-B
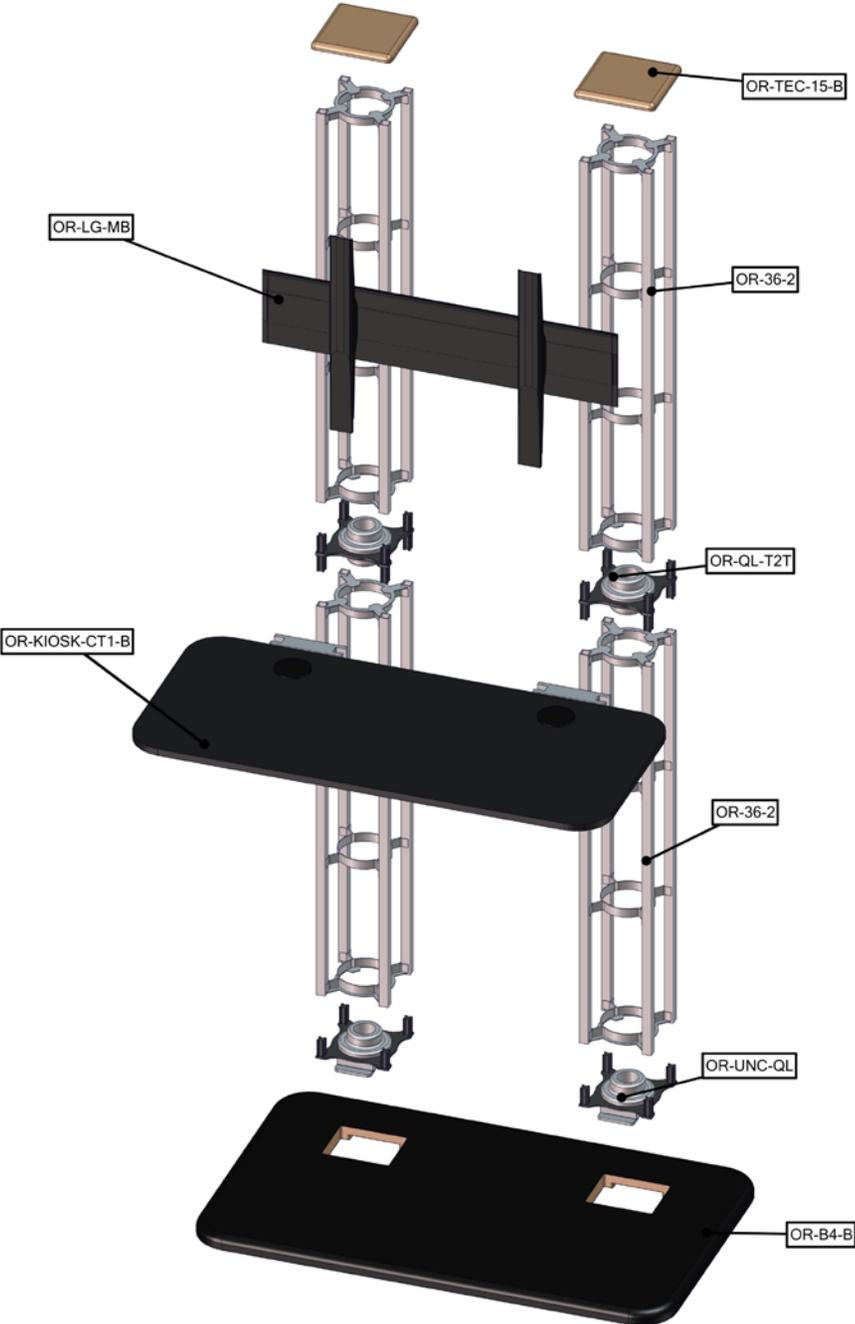

Connection Methods

Orbital Express Truss™ structures use a number of different yet simple connection methods. Your kit will include one or more of the connection methods shown below. Steps within the Kit Assembly will reference a specific method for each connection point.

Connection Method 1:
### Truss To Junction Box (OR-QL-T2J)
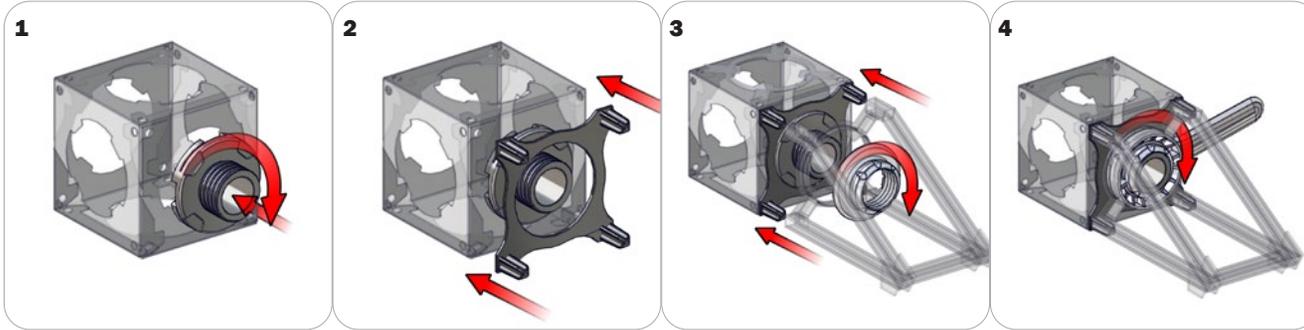

With your OR-QL-T2J (T2J) connector disassembled, insert the twist-lock hub of the connector into any large hole of the junction box and turn clockwise to lock into place (as shown in step 1). Place the bracket over the locked portion of the T2J connector so that the protruding hubs face outward (as shown in step 2). Push the truss you wish to connect onto the hubs of the T2J bracket. The hubs will slide into the holes in the end of the truss. Hand tighten the remaining cap onto the T2J connector and lock tight and securely using your OR-TOOL-B tool.

Connection Method 2:
Truss To Truss (OR-QL-T2T)
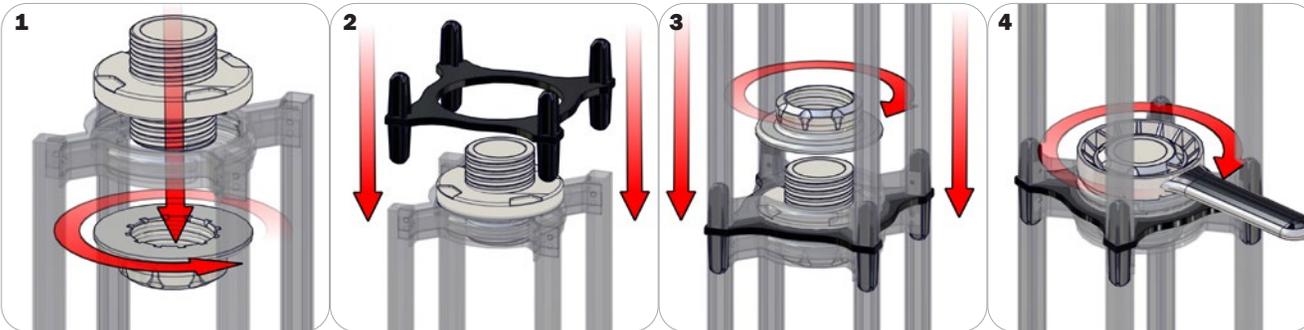

With your OR-QL-T2T (T2T) connector disassembled, assemble onto the end of your truss with the double-sided screw hub and a screw cap, then tighten with your OR-TOOL-B tool (as shown in step 1). Locate the bracket for your T2T connector. Insert the hubs of the bracket into the holes on the end of your truss. Add the truss you wish to connect by inserting the hubs of the bracket onto the second truss. Sandwich the end of the truss using the second screw cap and lock tight and securely using your OR-TOOL-B tool.

Connection Method 3:
Universal Connector (OR-UNC-QL) / Accessories
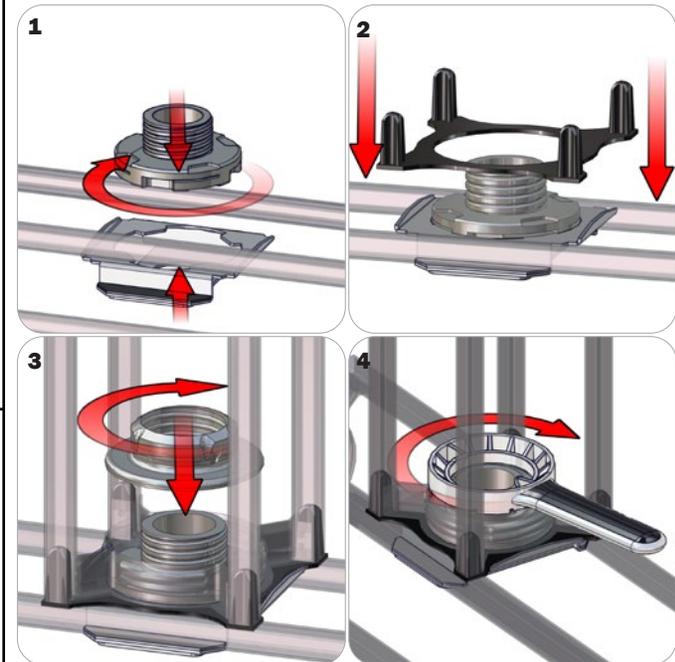

With your OR-UNC-QL (UNC) connector disassembled, assemble onto the end of the truss using the metal bracket and the screw hub. Turn clockwise to lock the bracket and twist-locking hub together. Add the plastic hub over the locked pieces so that the protruding hubs point away and the bracket sits flush. Push the truss you wish to connect onto the bracket, letting the hubs insert into the holes of the truss. Hand tighten the remaining cap onto the T2J connector and lock tight and securely using your OR-TOOL-B tool.

Kit Assembly

Step by Step

Step 1.

Assemble your truss kit according to the Exploded View. It is recommended to build your assembly from bottom to top.

Please reference Connection Methods 2 & 3 for more details.
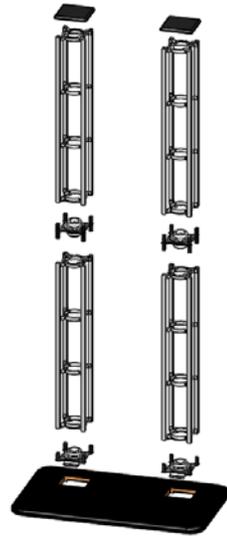

### Step 2.

Attach your OR-KIOSK-CT1 shelf to the truss.
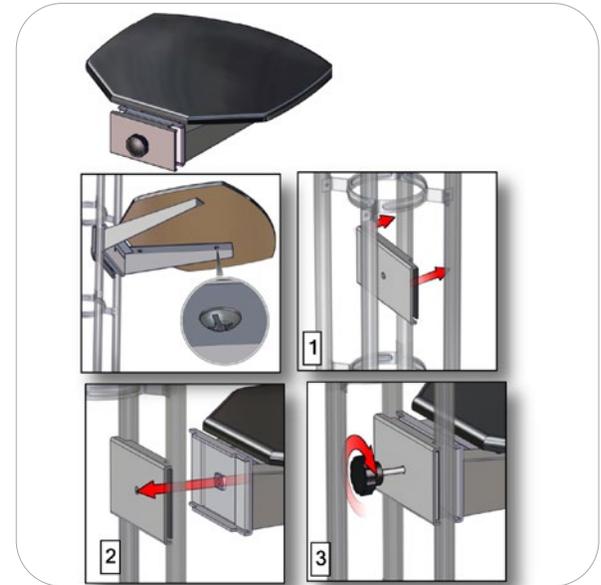

Step 3.

Apply your monitor bracket to the front of your kiosk.

Please reference Monitor Bracket instruction sheets for more details.
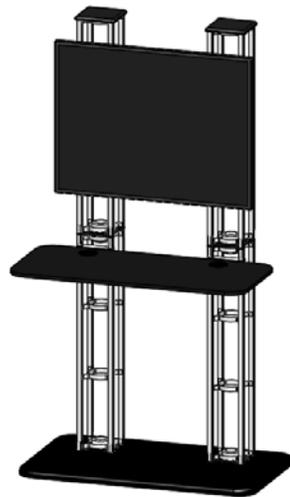

Monitor Bracket Instructions

Orbital Truss Applications

OR-SM-MB
**Sizes: 17" - 37"**
MAH weight varies per application

OR-M-MB
**Sizes: 32" - 55"**
MAH weight varies per application

OR-LG-MB
Sizes: 40" - 65"
MAH weight varies per application

Included hardware:
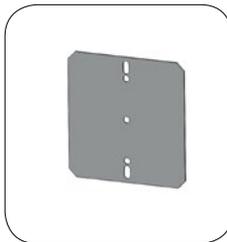

OR-IS-KNOB-2   x2   OR-TVA-PLT   x1   OR-TVA-PBKT   x2   Spacer   x2
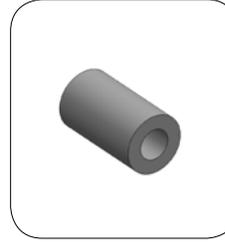

ORBITAL TRUSS CONNECTION

Vertical Connection
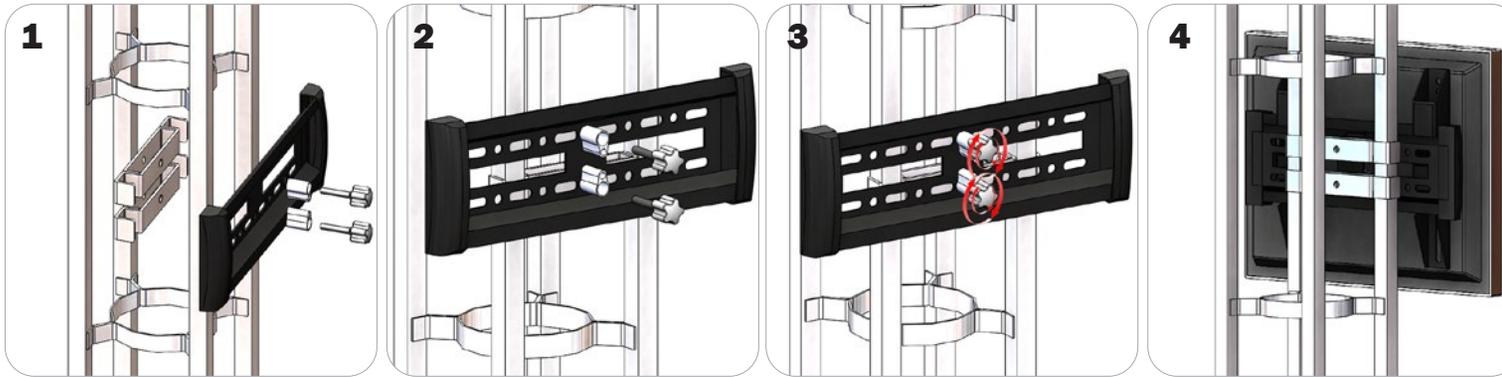

Locate all components needed to assemble the monitor mount with the Vertical Orbital Truss method. You will need (1) monitor bracket, (2) OR-TVA-PBKT-1 brackets, (2) OR-KNOB-2, and (2) spacers. Determine your desired monitor location. Place the **Step 1:** OR-TVA-PBKT-1 brackets so that they wrap around the posts of the truss.
**Step 2:** Align your monitor bracket so that the center holes align with the bracket holes behind them. **Step 3:** One at a time place a spacer over the hole and thread your OR-KNOB-2 thumbscrews. **Step 4:** Reference the included manufacturer monitor mount instructions for fastening your monitor to the bracket.

Horizontal Connection
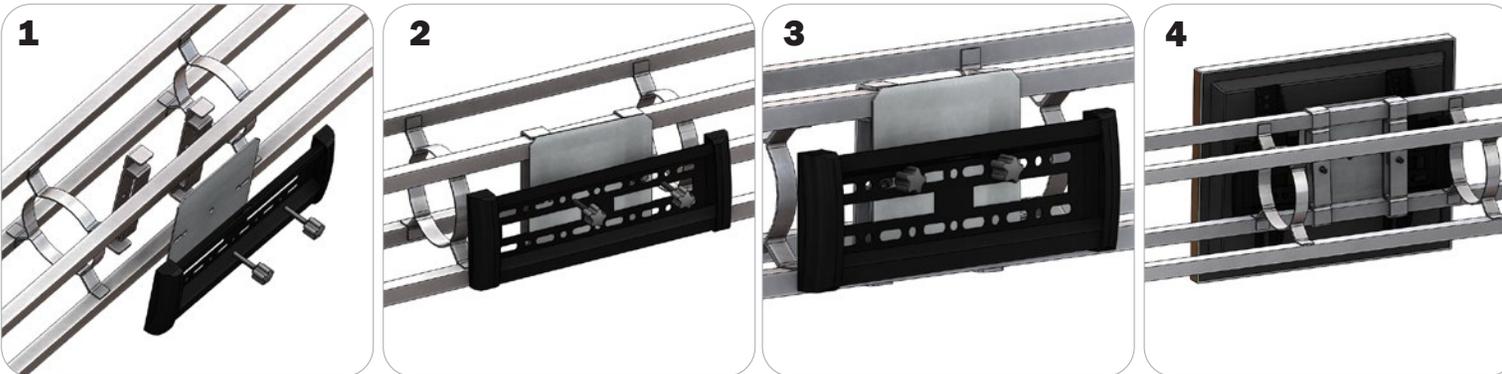

Locate all components needed to assemble the monitor mount with the Horizontal Orbital Truss method. You will need (1) monitor bracket, (2) OR-TVA-PBKT-1 brackets, (2) OR-KNOB-2, and (1) OR-TVA-PLT. Determine your desired monitor location. **Step 1:** Place the OR-TVA-PBKT-1 brackets so that they wrap around the posts of the truss. Add your OR-TVA-PLT and align the holes to the OR-TVA-PBKT-1. **Step 2:** Align your monitor bracket so that the left and right holes align with the plate holes behind them. **Step 3:** One at a time thread your OR-KNOB-2 thumbscrews through the holes. **Step 4:** Reference the included manufacturer monitor mount instructions for fastening your monitor to the bracket.
